- Describe how managers can effectively plan in today's dynamic environment.

# What Is Planning?

- Planning
  - A primary managerial activity that involves:
    - ❖ Defining the organization's goals
    - ❖ Establishing an overall strategy for achieving those goals
    - ❖ Developing plans for organizational work activities.
  - Types of planning
    - ❖ **Informal:** not written down, short-term focus; specific to an organizational unit.
    - ❖ **Formal:** written, specific, and long-term focus, involves shared goals for the organization.

# Why Do Managers Plan?

- Purposes of Planning

- Provides direction
- Reduces uncertainty
- Minimizes waste and redundancy
- Sets the standards for controlling

# Planning and Performance

- The Relationship Between Planning And Performance
  - Formal planning is associated with:
    - ❖ Higher profits and returns on assets.
    - ❖ Positive financial results.
  - The quality of planning and implementation affects performance more than the extent of planning.
  - The external environment can reduce the impact of planning on performance,
  - Formal planning must be used for several years before planning begins to affect performance.

# How Do Managers Plan?

- Elements of Planning

- Goals (also Objectives)

- ❖ Desired outcomes for individuals, groups, or entire organizations
    - ❖ Provide direction and evaluation performance criteria

- Plans

- ❖ Documents that outline how goals are to be accomplished
    - ❖ Describe how resources are to be allocated and establish activity schedules

# Types of Goals

- Financial Goals
  - Are related to the expected internal financial performance of the organization.
- Strategic Goals
  - Are related to the performance of the firm relative to factors in its external environment (e.g., competitors).
- Stated Goals versus Real Goals
  - Broadly-worded official statements of the organization (intended for public consumption) that may be irrelevant to its real goals (what actually goes on in the organization).

## Exhibit 7–2 Types of Plans

# Types of Plans

- Strategic Plans
  - Apply to the entire organization.
  - Establish the organization's overall goals.
  - Seek to position the organization in terms of its environment.
  - Cover extended periods of time.
- Operational Plans
  - Specify the details of how the overall goals are to be achieved.
  - Cover short time period.

# Types of Plans (cont'd)

- Long-Term Plans
  - Plans with time frames extending beyond three years
- Short-Term Plans
  - Plans with time frames on one year or less
- Specific Plans
  - Plans that are clearly defined and leave no room for interpretation
- Directional Plans
  - Flexible plans that set out general guidelines, provide focus, yet allow discretion in implementation.

## Exhibit 7–3 Specific Versus Directional Plans

# Types of Plans (cont'd)

- Single-Use Plan
  - A one-time plan specifically designed to meet the need of a unique situation.
- Standing Plans
  - Ongoing plans that provide guidance for activities performed repeatedly.

# Establishing Goals and Developing Plans

- Traditional Goal Setting
  - Broad goals are set at the top of the organization.
  - Goals are then broken into subgoals for each organizational level.
  - Assumes that top management knows best because they can see the “big picture.”
  - Goals are intended to direct, guide, and constrain from above.
  - Goals lose clarity and focus as lower-level managers attempt to interpret and define the goals for their areas of responsibility.

## Exhibit 7–4 The Downside of Traditional Goal Setting

# Establishing Goals and Developing Plans (cont'd)

- Maintaining the Hierarchy of Goals
  - Means–Ends Chain
    - ❖ The integrated network of goals that results from establishing a clearly-defined hierarchy of organizational goals.
    - ❖ Achievement of lower-level goals is the means by which to reach higher-level goals (ends).

# Establishing Goals and Developing Plans (cont'd)

- Management By Objectives (MBO)
  - Specific performance goals are jointly determined by employees and managers.
  - Progress toward accomplishing goals is periodically reviewed.
  - Rewards are allocated on the basis of progress towards the goals.
  - Key elements of MBO:
    - ❖ Goal specificity, participative decision making, an explicit performance/evaluation period, feedback

---

## Exhibit 7–5 Steps in a Typical MBO Program

---

1. The organization's *overall objectives and strategies* are formulated.
2. Major objectives are allocated among *divisional and departmental units*.
3. Unit managers *collaboratively set specific objectives* for their units with their managers.
4. Specific objectives are collaboratively set with *all department members*.
5. *Action plans*, defining how objectives are to be achieved, are specified and agreed upon by managers and employees.
6. The action plans are *implemented*.
7. Progress toward objectives is *periodically reviewed*, and *feedback* is provided.
8. Successful achievement of objectives is reinforced by *performance-based rewards*.

# Does MBO Work?

- Reason for MBO Success
  - Top management commitment and involvement
- Potential Problems with MBO Programs
  - Not as effective in dynamic environments that require constant resetting of goals.
  - Overemphasis on individual accomplishment may create problems with teamwork.
  - Allowing the MBO program to become an annual paperwork shuffle.

## **Exhibit 7–6 Characteristics of Well-Designed Goals**

---

- Written in terms of outcomes, not actions
  - Focuses on the ends, not the means.
- Measurable and quantifiable
  - Specifically defines how the outcome is to be measured and how much is expected.
- Clear as to time frame
  - How long before measuring accomplishment.
- Challenging yet attainable
  - Low goals do not motivate.
  - High goals motivate if they can be achieved.
- Written down
  - Focuses, defines, and makes goals visible.
- Communicated to all necessary organizational members
  - Puts everybody “on the same page.”

# Steps in Goal Setting

## 1. Review the organization's mission statement.

Do goals reflect the mission?

## 2. Evaluate available resources.

Are resources sufficient to accomplish the mission?

## 3. Determine goals individually or with others.

Are goals specific, measurable, and timely?

## 4. Write down the goals and communicate them.

Is everybody on the same page?

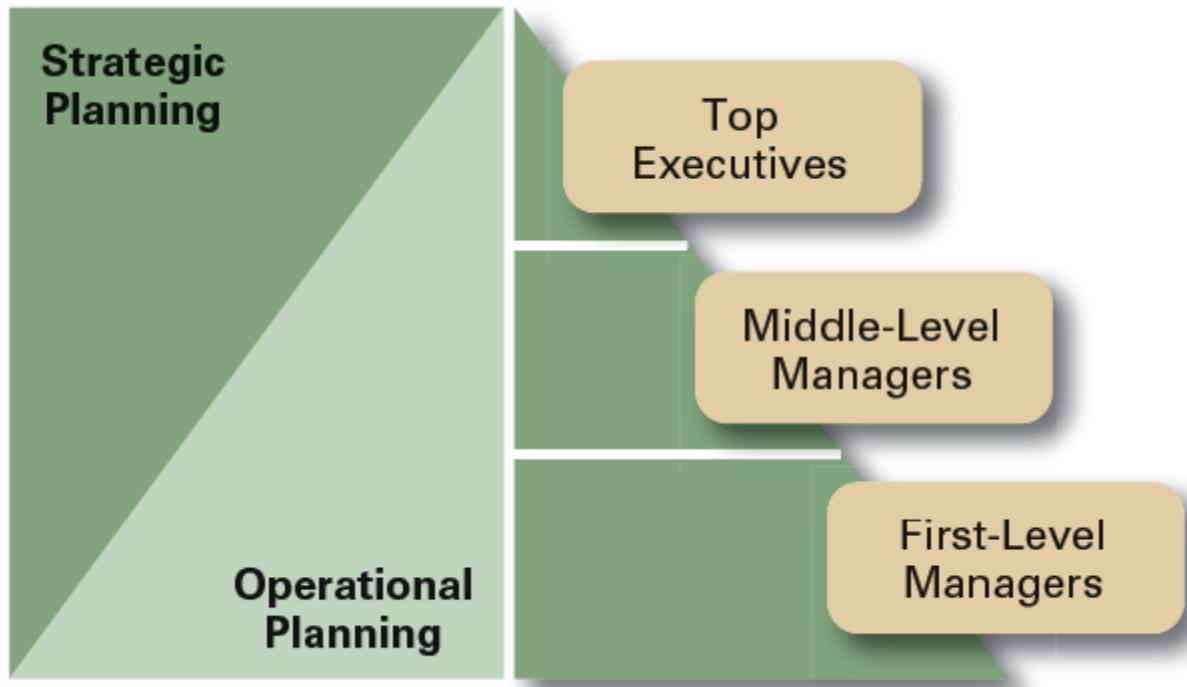

## 5. Review results and whether goals are being met.

What changes are needed in mission, resources, or goals?

# Developing Plans

- Contingency Factors in A Manager's Planning
  - Manager's level in the organization
    - ❖ Strategic plans at higher levels
    - ❖ Operational plans at lower levels
  - Degree of environmental uncertainty
    - ❖ Stable environment: specific plans
    - ❖ Dynamic environment: specific but flexible plans
  - Length of future commitments
    - ❖ **Commitment Concept:** current plans affecting future commitments must be sufficiently long-term to meet those commitments.

## Exhibit 7–7 Planning in the Hierarchy of Organizations

# Approaches to Planning

- Establishing a formal planning department
  - A group of planning specialists who *help* managers write organizational plans.
  - Planning is a function of management; it should never become the sole responsibility of planners.
- Involving organizational members in the process
  - Plans are developed by members of organizational units at various levels and then coordinated with other units across the organization.

# Contemporary Issues in Planning

- Criticisms of Planning

- Planning may create rigidity.
- Plans cannot be developed for dynamic environments.
- Formal plans cannot replace intuition and creativity.
- Planning focuses managers' attention on today's competition not tomorrow's survival.
- Formal planning reinforces today's success, which may lead to tomorrow's failure.

# Contemporary Issues in Planning (cont'd)

- Effective Planning in Dynamic Environments
  - Develop plans that are specific but flexible.
  - Understand that planning is an ongoing process.
  - Change plans when conditions warrant.
  - Persistence in planning eventually pay off.
  - Flatten the organizational hierarchy to foster the development of planning skills at all organizational levels.
